BINDING AT CRAGG BINDERY

Town Warrant of March 11, 1913

ARTICLE I. To choose all necessary town officers for the ensuing year. (See list of officers.)

ART. II. To raise such sums of money as may be necessary to defray town charge for the year ensuing, and make appropriation of the same. Vote to raise $300.00. Adopted.

ART. III. To see if the town will vote to raise and appropriate $200.00 to be paid the District Nurse Association for the support of a nurse in town. The money to be used at the discretion of the Association under the advice of the physicians. Adopted.

ART. IV. To see if the town will vote to raise and approriate the amount of money necessary to secure state aid for the permanent improvement of the highways, under the law passed at the January session, 1905, and amendments thereto. Adopted.

ART. V. To see if the town will vote to raise the fee to twelve hundred dollars for licenses of the second class, for the sale of intoxicating liquor and the fee for license of the third class to eight hundred dollars. Rejected.

ART. VI. To see if the town will vote to raise and appropriate the sum of twenty-five dollars for the observance of Memorial Day. Adopted.

ART. VII. To see if the town will vote to raise and appropriate the sum of one hundred and twenty-five dollars for the maintenance of road built under state aid, in order to procure a like sum from the state for said purpose, under the provisions of the law passed at the January session, 1911, entitled, "Motor Vehicles."

REPORT OF THE SCHOOL BOARD.

To the Citizens of Allenstown:

During the present school year the Union Supervisory School District consisting of Pembroke, Allenstown and Epsom was formed and Mr. Henry S. Roberts was elected superintendent at a salary of $1,200; Pembroke to pay one-half of the salary, Allenstown and Epsom one-quarter each.

We have maintained four schools since the beginning of the present school year. Three in the Brick and one in the Rural school house.

We have repaired the school house and out buildings at the Rural School and have enough of the money that was appropriated last year left to give the buildings a coat of paint.

At the Brick School House we have had the roof repaired at small cost and have made the usual small repairs. The roofer tells us that the valleys are in uncertain condition and should they become leaky again it will be best to put in new ones.

We would recommend the careful reading of the superintendent's report giving especial attention to the recommendations that will require an appropriation of money. Read, consider and come to the school meeting prepared to vote.

It will be necessary to raise $640 for high school tuitions for the coming year. We also recommend that $150 be raised for books and supplies.

GEORGE U. McNEAL,
ETTA M. STEARNS,
HARRY L. BILLINGS,
School Board.

REPORT OF THE SUPERINTENDENT.

To the School Board and Citizens of Allenstown:

I have the honor of submitting to you my first report of your schools.

In part 1, I briefly discuss some educational problems of general interest to each town in this district; in part 2, I call your attention to school conditions in Allenstown with recommendations.

Part I.

THE NEW IDEAL IN EDUCATION.

In speaking of the new ideal in education there is grave danger of being misunderstood or at least of not being correctly and thoroughly understood in what we mean by that term. The important and distinctive function of the school is the development of the entire child, mentally, morally and physically. The method by which this development is obtained, rather than the result, constitutes the novelty of the ideal.

The offering of more ample and varied opportunities and exercises for development, and the giving to the child a greater power of self adjustment to his environment, comprise what is vital and important in the new ideal in education.

THE PARENT TEACHERS' ASSOCIATION.

The school is but one of five organized, social agencies for helping and uplifting humanity, each of course in its own way:—the home, school, church, community and state.

Delinquent parents demand of the school the work which is the legitimate duty of the home; the church whose duty it is to teach righteousness makes urgent demands upon the school; business demands a higher

degree of skill than the school is able to confer; and the state demands that the school sends out law-abiding, honest and upright citizens.

These five agencies must re-enforce one another, and when each assumes its own share of responsibility and leaves the school to perform its specific duty of development, then and not until then may we realize the fullest service of the school.

The Parent Teachers' Association as an organization composed of parents, citizens and teachers, offers an opportunity for these five agencies to work unitedly for the uplift of school and community.

Regular meetings should be held, where educational, social and civic problems be discussed, questions asked and opinions freely given.

The teachers of Allenstown, Epsom, Hooksett and Pembroke formed an association with the hope of interesting parents and citizens in this movement. Temporary officers were elected to serve until permanent officers could be chosen from among parents and citizens.

The two meetings which have been held were well attended by the public. At the second one State Superintendent Morrison clearly and forcibly explained the aim of and benefits resulting from this organization.

At this meeting Miss Alice Harris, Assistant Superintendent of the schools of Worcester, Mass., gave a talk on reading, which was sound, thorough and helpful.

THE SCHOOL HOUSE AS A SOCIAL CENTER.

The public school plant, idle half the time, should be made to furnish the social center for the many and varied community interests. The spelling school, literary debates or lyceum, the singing school and other amusements indulged in a generation ago could be revived with interest and profit and more modern social and economic needs discussed.

Humanity is always seeking social enjoyment and if wholesome amusement is not furnished in rural communities the boys and girls will migrate to the larger social centers. Another and equally important benefit of the social center is the getting of the people together for the influence of the gathering in producing harmony of thought and unity of action.

MANUAL TRAINING AND DOMESTIC SCIENCE.

The introduction of manual training and domestic science in the school curriculum would make a great advancement in our school results. Their educational value is two-fold; disciplinary and practical.

Work is done for the purpose of training the hand and the eye and to familiarize the child with constructive principles and methods. The aim is not only to make an object of value, but more important to know how to make it.

Of equal importance is manual training in its power to arouse interest to remain in school and to perform more accurately and intensely the work of the rest of the daily program.

THE SCHOOL HOUSE.

The school house is an important factor in the education of the child and its influence leaves a lasting impression upon the mind, either for the beautiful or for the ugly.

It has been truthfully said, "The public school is the place to which we should turn chief attention in our effort to promote a more beautiful life in America. The school house and school grounds should be beautiful and the child should be surrounded by beauty in the school room from first to last. Trained in the habit of seeing beauty and knowing it he will come instinctively to hate ugliness in the house and in the street as he goes out in life."

To do good mental and moral work the child needs clean, well heated, properly lighted and ventilated school buildings and beautiful surroundings. Whittier feeling the absence of these beneficient influences which broaden and enoble life and enrich human experience, said:

> "Still sits the school house by the road,
> A ragged beggar sunning."

A child having gone to school amid beautiful surroundings will look back to it with pride and say with the poet Schiller: "It is only through the morning gate of the beautiful that you can penetrate into the realm of knowledge. That which we feel here as beauty we shall know one day as truth."

ATTENDANCE.

There is no one thing to be named which contributes so largely to the perplexities of the teacher and to the injury of scholars as irregular attendance. Real sickness of the child is a reason for absence from school and in some instances illness in the family. If parents would visit the schools to familiarize themselves with the necessity of punctuality of the scholars, both for the progress of the schools and the formation of good character in their children, they would, I think, co-operate more heartily with the teachers in securing perfect attendance.

Part II.

I would recommend that drawing and music be retained and conducted by the same instructors. That the school curriculum be enriched by the introduction of manual training and domestic science.

That the district vote medical inspection in accordance with the Medical Inspection Act, approved April 22, 1913, and vote sufficient money for carrying into effect the provisions of this law.

That a sum of money be raised for repairs sufficient to put the village and rural school houses into good condition.

That the school board report one hundred fifty dollars needed for text-books and supplies, as in previous years.

In conclusion I wish to say that in general the schools of this district are well governed and are making a commendable degree of progress. While certain conditions are unfavorable and need constant and intelligent effort for improvement yet it is doubtless true that the schools of this district compare favorably with schools of corresponding communities.

I desire to thank the citizens, teachers and school board for their assistance and hearty co-operation.

Respectfully submitted,

HENRY S. ROBERTS,

Superintendent of Schools.
